#### Notes

- (1) Results stated on a constant currency basis, a non-IFRS measure, are calculated by applying the average exchange rate of the comparable period in the prior year to current period local currency results.
- (2) Adjusted Net Income, a non-IFRS measure, eliminates the effect of a number of costs, charges and credits and certain other non-cash charges, along with their respective tax effects, that impact the Group's US Dollar reported profit for the period, which the Group believes helps to give securities analysts, investors and other interested parties a better understanding of the Group's underlying financial performance. See "Adjusted Net Income" for a reconciliation from the Group's profit for the period to Adjusted Net Income.
- (3) Adjusted earnings before interest, taxes, depreciation and amortization ("Adjusted EBITDA"), a non-IFRS measure, eliminates the effect of a number of costs, charges and credits and certain other non-cash charges, which the Group believes is useful in gaining a more complete understanding of its operational performance and of the underlying trends of its business. See "Adjusted EBITDA" for a reconciliation from the Group's profit for the period to Adjusted EBITDA.
- (4) Adjusted EBITDA margin, a non-IFRS measure, is calculated by dividing Adjusted EBITDA by net sales.
- (5) Adjusted basic and diluted earnings per share, both non-IFRS measures, are calculated by dividing Adjusted Net Income by the weighted average number of shares outstanding during the period.

The Group has presented certain non-IFRS measures in the financial highlights section above because each of these measures provides additional information that management believes is useful in gaining a more complete understanding of the Group's operational performance and of the trends impacting its business to securities analysts, investors and other interested parties. These non-IFRS financial measures, as calculated herein, may not be comparable to similarly named measures used by other companies, and should not be considered as measures comparable to IFRS measures in the Group's consolidated income statement for the period. Non-IFRS measures have limitations as an analytical tool and should not be considered in isolation from, or as a substitute for, an analysis of the Group's financial results as reported under IFRS.

#### Asia

Excluding foreign currency effects, the Group's net sales in Asia increased by US\$41.2 million, or 18.0%, for the three months ended March 31, 2017 compared to the three months ended March 31, 2016. US Dollar reported net sales for the region increased by US\$42.5 million, or 18.5%. Excluding net sales attributable to the Tumi business in Asia, net sales on a constant currency basis increased by US\$9.9 million, or 4.3%, for the three months ended March 31, 2017 compared to the three months ended March 31, 2016, and US Dollar reported net sales increased by US\$10.4 million, or 4.6%, year-on-year. This net sales increase was primarily driven by the *Samsonite*, *Kamiliant*, *Gregory*, *Lipault* and *Hartmann* brands, partially offset by decreases in net sales of the *American Tourister* and *High Sierra* brands.

On a constant currency basis, net sales of the *Samsonite* brand increased by US\$7.5 million, or 6.0%, for the three months ended March 31, 2017 compared to the same period in the previous year. US Dollar reported net sales of the *Samsonite* brand increased by US\$7.3 million, or 5.9%, from the same period in the previous year driven by the success that the brand enjoyed in the e-commerce channel. For the three months ended March 31, 2017, *Kamiliant*, a value-conscious, entry level brand introduced in Asia during the second half of 2015, recorded US Dollar reported net sales of US\$6.6 million, compared to US\$2.5 million for the three months ended March 31, 2016. Excluding foreign

currency effects, net sales of the American Tourister brand in the Asia region decreased by US\$4.3 million, or 5.0%, for the three months ended March 31, 2017 compared to the three months ended March 31, 2016. US Dollar reported net sales of the American Tourister brand decreased by US\$4.0 million, or 4.6%, from the same period in the previous year, primarily driven by decreased net sales of American Tourister product in the TV home shopping channel in China and South Korea. Nevertheless, the performance of the American Tourister brand in the Asia region has begun to show early signs of improvement compared to the second half of 2016, when net sales declined by 10.3% on a constant currency basis and by 10.7% on a US Dollar reported basis, helped by positive initial customer response to new product launches. Net sales of the Tumi brand, which was acquired on August 1, 2016, amounted to US\$32.0 million in Asia during the three months ended March 31, 2017. Net sales of the High Sierra brand amounted to US\$2.6 million in Asia during the three months ended March 31, 2017, a decrease of 37.0% year-on-year on a constant currency basis, while US Dollar reported net sales decreased by 35.3% from the same period in the previous year driven by a decrease in India due to the Group's decision to promote backpacks under its other brand names within the country. Net sales of the Hartmann brand amounted to US\$2.7 million in Asia during the three months ended March 31, 2017, an increase of 49.3% from the same period in the previous year on a constant currency basis, while US Dollar reported net sales increased by 52.2% year-on-year as the brand continued to gain traction in the region. Net sales of the Gregory brand in Asia amounted to US\$7.7 million during the three months ended March 31, 2017, an increase of 73.5% year-on-year on a constant currency basis, and an increase of 77.3% from the same period in the previous year on a US Dollar reported basis as the Group continued to develop products designed specifically for the tastes and preferences of consumers within the region. Net sales of the Lipault brand amounted to US\$3.0 million in Asia during the three months ended March 31, 2017 compared to net sales of US\$2.1 million during the three months ended March 31, 2016 as the brand began to successfully expand throughout the region.

During the three months ended March 31, 2017, net sales attributable to the Tumi business within Asia were only recorded in Japan, South Korea (where the Group assumed direct control of the distribution of the Tumi brand on January 1, 2017) and Hong Kong (net sales recorded in Hong Kong included sales to third party distributors of the Tumi brand in various countries in the Asia region, excluding Japan and South Korea where the Group has direct control of the distribution of the *Tumi* brand). Japan experienced strong constant currency growth of 54.4% during the three months ended March 31, 2017 compared to the same period in the previous year. Excluding net sales attributable to the Tumi business in Japan, net sales on a constant currency basis increased by 15.2%, while net sales on a US Dollar reported basis increased by 18.5% year-on-year, driven by the Samsonite and Gregory brands. Excluding foreign currency effects, net sales in China increased by 10.4% year-on-year, driven by growth of the Samsonite brand. Net sales in South Korea increased by US\$8.3 million, or 18.3%, on a constant currency basis. Excluding net sales attributable to the Tumi business in South Korea, net sales decreased by 0.6% on a constant currency basis due to weak consumer sentiment in the country and a decrease in shoppers visiting from China during the period. On a constant currency basis, net sales in India increased by 9.0% for the three months ended March 31, 2017 compared to the same period in the previous year, driven by the American Tourister and Kamiliant brands. On a constant currency basis, net sales in Hong Kong (including Macau) increased by 71.7% year-on-year, driven by net sales attributable to the Tumi business (which included sales to Tumi distributors in other Asian countries). Excluding net sales attributable to the Tumi business, net sales in Hong Kong (including Macau) decreased by US\$0.8 million, or 5.1%, on a constant currency basis, while net sales on a US Dollar reported basis decreased by US\$0.8 million, or 5.0%, driven primarily by fewer Chinese shoppers visiting from the Mainland. Australia had strong constant currency net sales growth of 9.2% year-on-year, driven by increased sales of the Samsonite and High Sierra brands.

#### **North America**

Excluding foreign currency effects, the Group's net sales in North America increased by US\$85.4 million, or 46.4%, for the three months ended March 31, 2017 compared to the three months ended March 31, 2016. US Dollar reported net sales for the North American region increased by US\$85.8 million, or 46.7%. Excluding net sales attributable to the Tumi business in North America, net sales on a constant currency basis decreased by US\$1.6 million, or 0.9%, and US Dollar reported net sales decreased by US\$1.3 million, or 0.7%, year-on-year due to reduced net sales of the American Tourister and High Sierra brands, partially offset by growth of the Samsonite and Speck brands. Net sales of the American Tourister brand decreased by US\$2.0 million, or 10.1%, on a constant currency basis and US Dollar reported net sales decreased by US\$2.0 million, or 9.9%, year-on-year. This decrease was primarily due to certain customers delaying their replenishment orders in anticipation of new product launches planned for the second half of 2017. Net sales of the High Sierra brand decreased by US\$1.9 million, or 15.0%, on a constant currency basis and US Dollar reported net sales decreased by US\$1.9 million, or 14.8%, year-on-year primarily due to the non-recurrence of certain apparel sales that occurred during the three months ended March 31, 2016. Excluding foreign currency effects, net sales of the Samsonite brand increased by US\$2.6 million, or 2.2%, and US Dollar reported net sales increased by US\$2.8 million, or 2.4%, for the three months ended March 31, 2017 compared to the same period in the prior year. Net sales of the Speck brand in North America increased by US\$0.8 million, or 3.4%, on both a constant currency and US Dollar basis for the three months ended March 31, 2017 compared to the three months ended March 31, 2016, reflecting a postponement in new product launches due to the delay of certain new electronic device

introductions to the second quarter of 2017. Net sales of the *Tumi* brand, which was acquired on August 1, 2016, amounted to US\$87.1 million in North America during the three months ended March 31, 2017.

Net sales of the *Tumi* brand, which was acquired on August 1, 2016, amounted to US\$135.8 million during the three months ended March 31, 2017. This amount included US\$1.5 million in net sales of Tumi products made through Rolling Luggage and other Samsonite multi-brand stores, compared to net sales of US\$1.3 million recognized during the three months ended March 31, 2016 (which were classified under "Other" brands). #### **Gross Profit**

Gross profit increased by US\$107.0 million, or 35.8%, to US\$405.6 million for the three months ended March 31, 2017 from US\$298.6 million for the three months ended March 31, 2016. Gross profit margin increased to 55.3% for the three months ended March 31, 2016.

The increase in gross profit margin was partly attributable to the acquisition of Tumi, which delivers higher margins. Excluding amounts attributable to the Tumi business, gross profit increased by US\$24.1 million, or 8.1%, to US\$322.7 million, and gross profit margin increased to 53.9% for the three months ended March 31, 2017 from 52.5% for the three months ended March 31, 2016 largely due to a higher proportion of net sales being derived from direct-to-consumer channels, partly offset by the negative impact on product costs from the strengthened US Dollar.

### **Distribution Expenses**

Distribution expenses increased by US\$70.6 million, or 42.4%, to US\$237.0 million (representing 32.3% of net sales) for the three months ended March 31, 2017 from US\$166.4 million (representing 29.3% of net sales) for the three months ended March 31, 2016. This increase was primarily due to the acquisition of Tumi and the increase in sales volume during the three months ended March 31, 2017. Distribution expenses as a percentage of net sales increased year-on-year primarily due to the acquisition of Tumi, which has a higher distribution expense ratio because of its higher mix of direct-to-consumer sales. The Group recorded an additional US\$5.2 million of amortization in the first quarter of 2017 compared to the first quarter of 2016, primarily associated with the definite-lived intangible assets recognized in conjunction with the Tumi acquisition. Excluding amounts attributable to the Tumi business, distribution expenses as a percentage of net sales were 29.9% for the three months ended March 31, 2017 compared to 29.3% for the same period in the previous year, primarily due to increased costs from the Group's retail expansion strategy, investment in the infrastructure of the Group's business in Latin America and investment in the geographical expansion of the *American Tourister*, *Lipault* and *Hartmann* brands.

#### **Marketing Expenses**

The Group spent US\$39.2 million (representing 5.3% of net sales) on marketing during the three months ended March 31, 2017 compared to US\$30.2 million (representing 5.3% of net sales) for the three months ended March 31, 2016, an increase of US\$9.1 million, or 30.1%. The Group believes the success of its advertising campaigns is evident in its net sales growth, and remains committed to enhancing brand and product awareness and driving additional net sales growth through focused marketing activities.

#### **General and Administrative Expenses**

General and administrative expenses increased by US\$14.7 million, or 41.0%, to US\$50.7 million (representing 6.9% of net sales) for the three months ended March 31, 2017 from US\$35.9 million (representing 6.3% of net sales) for the three months ended March 31, 2016. Excluding amounts attributable to the Tumi business, general and administrative expenses as a percentage of net sales were 6.9% for the three months ended March 31, 2017 compared to 6.3% for the same period in the previous year. General and administrative expenses increased as a percentage of net sales due to higher depreciation attributable to the Tumi acquisition, as well as an increase in certain other fixed costs compared to the same period in the previous year.

#### **Other Expenses**

The Group incurred other expenses of US\$5.8 million and US\$6.3 million for the three months ended March 31, 2017 and March 31, 2016, respectively. This increase was attributable to a US\$19.3 million increase in interest expense related to the Senior Credit Facilities (described in the Indebtedness section below), which includes the amortization of deferred financing costs in the amount of US\$2.6 million. This increase was partially offset by a US\$4.3 million decrease in the expense recognized for the change in fair value of put options related to agreements with certain holders of non-controlling interests for the three months ended March 31, 2017 compared to the three months ended March 31, 2016, and a US\$5.1 million decrease in foreign exchange losses year-on-year.

The Group's consolidated effective tax rate for operations was 28.6% and 26.3% for the three months ended March 31, 2017 and March 31, 2016, respectively. The effective tax rate is calculated using a weighted average income tax rate from those jurisdictions in which the Group is subject to tax, adjusted for permanent book/tax differences, tax incentives, changes in tax reserves and changes in unrecognized deferred tax assets. The effective tax rate for each period was recognized based on management's best estimate of the weighted average annual tax rate expected for the full financial year applied to the pre-tax income for each respective period. The increase in the Group's effective tax rate was mainly the result of normal changes in the profit mix between high and low tax jurisdictions, including the addition of Tumi which has a majority of its income generated in the higher tax rate jurisdiction of the United States.

### **Profit for the Period**

On August 1, 2016 (the "Closing Date"), the Company and certain of its other indirect wholly-owned subsidiaries became parties to the Credit Agreement. The Credit Agreement provides for (1) a US\$1,250.0 million senior secured term loan A facility (the "Term Loan A Facility"), (2) a US\$675.0 million senior secured term loan B facility (the "Term Loan B Facility" and, together with the Term Loan A Facility, the "Term Loan Facilities") and (3) a US\$500.0 million revolving credit facility (the "Revolving Facility", and, together with the Term Loan Facilities, the "Senior Credit Facilities").

On the Closing Date, the Company and certain of its other indirect wholly-owned subsidiaries became parties to the Credit Agreement, and the Group used the proceeds from the Senior Credit Facilities to pay the total consideration under the Merger Agreement, to repay all amounts then outstanding under the Group's prior US\$500.0 million revolving credit facility (the "Prior Revolving Facility"), which Prior Revolving Facility was then terminated, and to pay fees, costs and expenses related to the Tumi acquisition, as well as for general corporate purposes.

#### Interest Rate and Fees

Interest on the borrowings under the Term Loan A Facility and the Revolving Facility began to accrue on the Closing Date. The interest rates for such borrowings were initially based on the London Interbank Offered Rate ("LIBOR") plus an applicable margin of 2.75% per annum. The borrowers under such facilities could also initially elect to pay interest at a base rate plus 1.75% per annum. The applicable margin for borrowings under both the Term Loan A Facility and the Revolving Facility may step down based on achievement of a specified total net leverage ratio of the Company and its subsidiaries at the end of each fiscal quarter, commencing with the quarter ended December 31, 2016. Interest on the borrowing under the Term Loan B Facility began to accrue on May 13, 2016 at the rate of LIBOR plus 3.25% per annum. The borrower under such facility may also elect to pay interest at a base rate plus 2.25%.

In addition to paying interest on outstanding principal under the Senior Credit Facilities, the borrowers pay customary agency fees and a commitment fee in respect of the unutilized commitments under the Revolving Facility, which was initially 0.50% per annum. The commitment fee may step down based on the achievement of a specified total net leverage ratio level of the Company and its subsidiaries at the end of each fiscal quarter, commencing with the quarter ended December 31, 2016.

On February 2, 2017, the Group refinanced the Senior Credit Facilities (the "Repricing"). Under the terms of the Repricing, the interest rate payable on the Term Loan A Facility and the Revolving Facility was reduced with effect from February 2, 2017 until the delivery of the financial statements for the period ending June 30, 2017 to LIBOR plus 2.00% per annum (or a base rate plus 1.00% per annum) from LIBOR plus 2.75% per annum (or a base rate plus 1.75% per annum) and thereafter shall be based on the total net leverage ratio of the Group at the end of each fiscal quarter. The interest rate payable on the Term Loan B Facility was reduced with effect from February 2, 2017 to LIBOR plus 2.25% per annum with a LIBOR floor of 0.00% (or a base rate plus 1.25% per annum) from LIBOR plus 3.25% per annum with a LIBOR floor of 0.75% (or a base rate plus 2.25% per annum). In addition, the commitment fee payable in respect of the unutilized commitments under the Revolving Facility was reduced from 0.5% per annum to 0.375% per annum through June 30, 2017 and thereafter shall be based on the total net leverage ratio of the Group at the end of each fiscal quarter. In conjunction with the Repricing, the Group incurred approximately US\$5.4 million in fees and expenses that was deferred and is amortized over the term of the borrowings.

#### Amortization and Final Maturity

The Term Loan A Facility requires scheduled quarterly payments that commenced December 31, 2016, with an amortization of 2.5% of the original principal amount of the loans under the Term Loan A Facility made during the first year, with a step-up to 5.0% amortization during the second and third years, 7.5% during the fourth year and 10.0% during the fifth year, with the balance due and payable on the fifth anniversary of the Closing Date. The Term Loan B Facility requires scheduled quarterly payments that commenced December 31, 2016, each equal to 0.25% of the original principal amount of the loans under the Term Loan B Facility, with the balance due and payable on the seventh anniversary of the Closing Date. There is no scheduled amortization of the principal amounts of the loans outstanding under the Revolving Facility. Any principal amount outstanding under the Revolving Facility is due and payable on the fifth anniversary of the Closing Date.

### Certain Covenants and Events of Default

The Senior Credit Facilities contain a number of customary negative covenants that, among other things and subject to certain exceptions, may restrict the ability of the Company and its subsidiaries. In addition, the Credit Agreement requires the Company and its subsidiaries to meet certain quarterly financial covenants. The Group was in compliance with the financial covenants as of March 31, 2017.

#### Interest Rate Swaps

The Group entered into interest rate swap transactions on June 1, 2016 that became effective on December 31, 2016 and will terminate on August 31, 2021. The Group uses the interest rate swap transactions to minimize its exposure to interest rate fluctuations under the floating-rate Senior Credit Facilities by swapping certain US Dollar floating-rate bank borrowings with fixed-rate agreements. The interest rate swap agreements had initial notional amounts totaling US\$1,237.0 million representing approximately 65% of the anticipated balances of the Term Loan Facilities. The notional amounts of the interest rate swap agreements decrease over time in line with required amortization and anticipated prepayments on the Term Loan Facilities. LIBOR has been fixed at approximately 1.30% under each agreement. Each of the interest rate swap agreements have fixed payments due monthly that commenced January 31, 2017. The interest rate swap transactions qualify as cash flow hedges under IFRS. As of March 31, 2017, the interest rate swaps were marked-to-market, resulting in a net asset position to the Group in the amount of US\$19.4 million, which was recorded as an asset with the effective portion of the gain deferred to other comprehensive income.

### **Deferred Financing Costs**

The Group recognized US\$69.5 million of deferred financing costs during the year ended December 31, 2016 related to the Senior Credit Facilities. In addition, the Group recognized US\$5.4 million of deferred financing costs during the three months ended March 31, 2017 related to the Repricing, the balances of which were included in non-current loans and borrowings in the consolidated statement of financial position as of March 31, 2017 and December 31, 2016. The deferred financing costs were comprised of the original issue discount, commitment fees and other financing-related costs that were deferred and offset against loans and borrowings and are amortized using the effective interest method over the life of the Term Loan Facilities.

## Revolving Facility

As of March 31, 2017, US\$496.9 million was available to be borrowed on the Revolving Facility as a result of the utilization of US\$3.1 million of the facility for outstanding letters of credit extended to certain creditors. No amounts were borrowed on the Revolving Facility as of March 31, 2017.

## Other Loans and Borrowings

Certain consolidated subsidiaries of the Group maintain credit lines with various third party lenders in the regions in which they operate. Other loans and borrowings are generally variable rate instruments denominated in the functional currency of the borrowing Group entity. These local credit lines provide working capital for the day-to-day business operations of the subsidiaries, including overdraft, bank guarantees, and trade finance and factoring facilities. The majority of these credit lines are uncommitted facilities. The total aggregate amount outstanding under the local facilities was US\$15.2 million and US\$13.4 million as of March 31, 2017 and December 31, 2016, respectively.
